2. Currency list enhancement - 600,000 AWC
3. Ethical hacking and vulnerability scan - 600,000 AWC
4. Content production - 750,000 AWC
5. Social - 750,000 AWC
6. Translation - 150,000 AWC

Private sale - 50,000,000 AWC

Atomic Wallet is open to all investors ready to contribute at least \$100,000. In order to prevent the possible centralization of tokens in single hands, the maximum investment threshold of \$ 1 million has been determined. Investing in Atomic Wallet will be available only to individuals who have passed KYC.

Crowdsale - 15,000,000 AWC

The maximum number of issued tokens is 100,000,000. This amount of emission is possible only on condition that all investments are collected to the maximum allowable amounts of 1,000,000, and a hard cap is reached.

The minimum number of tokens to be issued is set to 25,000,000. This amount of emission is possible only on condition that all investments are collected with minimum allowable amounts of 100,000, and the minimum amount necessary for the development of the project is achieved.
